

FUMC Handyman Ministry

Ministering to FUMC members who need assistance with simple to moderate home repairs such as:

- Light bulb change
- Ceiling fan replacement or stabilization
 - Door handle and lock repairs
 - Leaky faucets and commodes
 - Caulking
 - Insulation around doors and windows
 - Wheelchair ramps
 - Step repair
 - Spackling with touch up paint
- Minor chain saw jobs such as fallen tree limbs
 - Minor Fence repair
- Battery change of smoke detectors
 - Electrical outlet and switch repairs

How this ministry works:

- Call the church office to request repairs
- The office will contact a Handyman volunteer
- The volunteer will then contact you and determine the supplies needed for the repair
- We ask that you reimburse the volunteer for the supplies purchased for the repairs.
